

Classe : 1^{ère} année

Date : / /

Prénom :

Je calcule vite et bien jusqu'à 20

1) Fais les calculs suivants.

$10 - 1 = \underline{\hspace{2cm}}$	$10 + 5 = \underline{\hspace{2cm}}$	$10 + 2 = \underline{\hspace{2cm}}$	$14 - 4 = \underline{\hspace{2cm}}$
$10 + 4 = \underline{\hspace{2cm}}$	$15 - 10 = \underline{\hspace{2cm}}$	$10 + 7 = \underline{\hspace{2cm}}$	$10 + 0 = \underline{\hspace{2cm}}$
$13 - 3 = \underline{\hspace{2cm}}$	$10 - 0 = \underline{\hspace{2cm}}$	$16 - 10 = \underline{\hspace{2cm}}$	$16 - 6 = \underline{\hspace{2cm}}$
$13 - \underline{\hspace{2cm}} = 3$	$10 + \underline{\hspace{2cm}} = 19$	$14 - \underline{\hspace{2cm}} = 4$	$10 + 1 = \underline{\hspace{2cm}}$
$10 + \underline{\hspace{2cm}} = 12$	$13 - 3 = \underline{\hspace{2cm}}$	$10 + 9 = \underline{\hspace{2cm}}$	$2 + \underline{\hspace{2cm}} = 12$
$4 + \underline{\hspace{2cm}} = 14$	$10 = \underline{\hspace{2cm}} + 0$	$18 - \underline{\hspace{2cm}} = 10$	$12 = \underline{\hspace{2cm}} + 2$
$18 - \underline{\hspace{2cm}} = 10$	$2 = 12 - \underline{\hspace{2cm}}$	$15 - 5 = \underline{\hspace{2cm}}$	$5 = 15 - \underline{\hspace{2cm}}$
